Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7 and 15, in so far as they are drawn to a method of treating an ischemic reperfusion injury or disease based thereon comprising administering a Fas antagonist, classified in class 514, subclass 1.
- II. Claims 8,9 and 15, in so far as they are drawn to method of treating graft versus host disease comprising administering a Fas antagonist, classified in class 514, subclass 1.
- III. Claims 10-12 and 15, in so far as they are drawn to a method of treating an organ injury comprising administering a Fas antagonist, classified in class 514, subclass 1.
- IV. Claims 13 and 14, drawn to a method of preserving an organ comprising contacting the organ with a solution comprising an effective amount of a Fas antagonist, classified in class 435, subclass 1.1.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-IV are related in that they are methods of treatment with a Fas antagonist, however, inventions I-III are methods of treating either a reperfusion injury or disease based thereon, graft versus host disease or organ injury, which are methods of treating different patient populations which would require different searches and which would be a burden. Additionally,

Art Unit: 1646

the method of preserving an organ of invention IV would require different method steps and equipment, and has a different purpose from the other methods.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification or separate search requirements, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
